

The clever way around your city.

Neo's has become a byword for style, user-friendliness and dependability. The Neo's 4 adds to this with quiet 4-stroke performance and lower emissions.

Low weight, low seat height, big 12inch wheels and the 190 mm front disc brake let you breeze through traffic with agility and confidence. And, with its elegantly flowing bodywork, blue-lit LCD instrument readout and beautiful alloy wheels, it is filled with stylish details.

The Neo's 4 comfy dual seat with grab handles and powerful 4-stroke engine mean you can ride two-up with lively performance. A lockable under-seat storage compartment big enough for a full-face helmet, and a handy luggage hook mean you can both ride in comfort.

- Cool, contemporary-styled urban scooter
- Liquid-cooled, fuel-injected 4-stroke 50cc engine
- Excellent economy and lower emissions
- Classy blue backlit LCD instrument panel
- Lockable helmet/baggage compartment
- Alloy wheels and chunky 12inch tyres
- Handy luggage hook
- Elegantly flowing bodywork
- Iconic 'twin-eye' dual headlight design
- Power and space to take two in comfort

The stylish way to get around

Yamaha's design philosophy is "The Art of Engineering". Every Yamaha product is designed to perform exceptionally, but not at the cost of style. Our engineers are filled with a desire to create machines with grace and beauty. Added to this they seek technical excellence and class-leading performance.

This commitment to design means Yamaha scooters are great to be seen on and great to ride. Lightweight and compact frame designs make for easy handling, while the 50cc engines provide quiet, refined and economical performance.

But most of all these machines turn heads, with their sharp, modern looks and original design.

4-stroke engine: great economy, lower emissions

It's easy to love riding the Neo's 4 with its user-friendly 4-stroke performance, economical fuel-consumption, low emissions and quiet running. Fuel-injected, the liquid-cooled 50cc engine generates power right through the rev range, breezing up hills even with two on board.

Beautiful bodywork

The Neo's 4's elegantly flowing, organic lines catch the eye, making it one of the most recognisable scooters on the street. Its rounded, egg-shaped bodywork, and sophisticated, recessed 'twin-eye' dual headlight design give the Neo's 4 a friendly face that's sure to make you smile.

Built to take two in comfort

Neo's 4 features a dual seat, plus integral grab rails and fold-out foot rests, so you and your passenger always feel comfortable and secure. Two people can enjoy the lively performance of the Neo's 4, riding up steep gradients or on the open road.

Lock away your helmet

Under the seat you'll find a lockable storage compartment that takes a full-face helmet or a shopping bag or two. It's just one of a whole range of practical features on Neo's 4. You will also find a luggage hook handy for quickly securing your helmet or bag.

Ultra-neat digital instrument console

The digital instrument panel is backlit in blue with an easy-to-read LCD featuring fuel gauge, clock, speedometer and warning lights. Designed for effortless style, high visibility and practicality.

Elegantly styled alloy wheels

Five-spoke alloy wheels look great and carry chunky 12inch tyres for a confidence-boosting ride and perfectly match the elegant bodywork design. The front disc brake provides you with great stopping power, giving the feeling of total control.

ENGINE	
Type	Liquid-cooled, 4-stroke single cylinder
Displacement	49.4cc
Bore x stroke	38 x 43.6 mm
Compression ratio	12.0 : 1
Maximum Power	2.30 kW @ 7,000 rpm
Maximum Torque	3.15 Nm @ 7,000 rpm
Lubrication system	Wet sump
Fuel supply system	Fuel Injection
Ignition system	TCI
Starter system	Electric and kick
Transmission system	V-Belt Automatic

DIMENSIONS	
Overall length	1,840 mm
Overall width	663 mm
Overall height	1,118 mm
Seat height	790 mm
Wheelbase	1,275 mm
Min. ground clearance	154 mm
Wet weight (including full oil and fuel tank)	95 kg
Fuel capacity	5.4 litres

CHASSIS	
Front suspension	Telescopic fork
Front wheel travel	70 mm
Rear suspension	Hydraulic Unit swing
Rear wheel travel	60 mm
