

**X-CITY**

Executive scooter style, at its best.

With immediate power and performance when you need it most, the X-City 250 makes sense in a world where time and efficiency is of the essence.

This high-wheeled scooter assures riding stability and grip, while powerful front and rear disc brakes provide great stopping power. Responsive performance comes from a 250cc liquid-cooled, fuel-injected, 4-stroke engine with automatic transmission, low emissions and low fuel consumption.

Subtle design touches include a blue backlit, aluminium instrument panel, adjustable windscreen and a rear carrier. Mix this with high manoeuvrability, a specially sculpted seat, ample storage, passenger grips and the overall compact design, and you have the ultimate high-wheel city scooter.

- Responsive fuel-injected, 4-stroke 250cc engine
- High-wheel 16inch front and 15inch rear tyres
- Height-adjustable windscreen
- Easy-access, sculpted seat for comfort & low speed control
- Compact, fashionable design
- Stylish blue-backlit instrument panel

The best of both worlds

High-wheel scooters shatter old-fashioned ideas about personal transport. The precision and stability of a high-wheeled scooter creates a remarkable feeling of rider security, without losing any of the effortless manoeuvrability you'd rightly expect from a scooter.

This high fashion, high-wheel scooter is ideal for a busy lifestyle; effortlessly cutting through traffic, it will get you to your appointments with total reliability and understated style.

And when it's time to cut loose, the X-City takes you – and maybe someone special – to your destination in speed and comfort.

Instant-response 250cc engine

The X-City 250 will respond to your every whim. The liquid-cooled, fuel-injected, 4-stroke engine turns high torque into action from very low engine speeds, gives immediate response throughout the rev range and is compliant with EU3 emission regulations.

Elegant and effective instrument panel

The aluminium finish gives the X-City 250's instrument panel just the right amount of elegance and sophistication, while a sporty element is added by the blue-backlit display. And these design touches also ensure that the instruments are always easy to read.

High wheels for secure handling

The high-wheeled X-City 250 gives a super-smooth and secure ride thanks to its big 16inch front and 15inch rear wheels. The great traction these wheels provide, is combined with a low seat position, responsive suspension and powerful disc brakes that ensures stable but agile performance and great manoeuvrability whatever the city streets throw at you.

Adjustable protective windscreen

The X-City 250 doesn't compromise when it comes to battling the elements. Its height-adjustable windshield is perfect for dealing with wind and rain, so you can enjoy your journey rather than fighting the conditions, and ensures – together with the protective bodywork – that you make appointments looking as smart as you did when you left home.

Storage solutions: large and small

Under-seat storage provides the kind of space you need for stowing a jet helmet, or important documents, a business bag, or even your shopping. The lockable glovebox is as spacious as it is stylish, and is just perfect for those items you need to get to in a hurry.

Long-range fuel tank

The X-City 250 isn't just about the urban riding experience, it's ready to take you on out-of-town adventures as well. The 10.5 litre fuel tank reduces non-riding downtime and frees you to enjoy your journeys to the full.

ENGINE	
Type	Liquid-cooled, 4-stroke single cylinder
Displacement	249.8cc
Bore x stroke	69.0 x 66.8 mm
Compression ratio	10.0 ± 0.4 : 1
Maximum Power	15.6 kW @ 7,500 rpm
Maximum Torque	21.5 Nm @ 5,800 rpm
